

During the 2018-19 school year, I served as a consultant and facilitator of the Artist In the Community Project on behalf of the Ministry of Culture and the Sport.

In this framework, I have advised artists in the community regarding professional and managerial challenges. I met frequently with the nine artists in the community around the country, visited them on site, accompanied and guided the artists through their projects and also exhibited selected activities to the general public. The work was done to the satisfaction of Ms. Sheerit Kissin, former Head of the Visual Art Department in the Ministry of Culture and Sport.
