

Art and Community Engagement

12-17.5.19*

Lecturer: Hadas Kedar

The Seminar for Community Involvement in Art combines theoretical topics and creative activities: reviewing relevant texts, shared meals, meetings with the community of Arad, collaborative art workshops, excursions in the area.

The seminar invites art students to interrogate art of marginal areas and to stand on the characteristics and sources of inspiration of culture in remote regions. During the seminar, the students will get acquainted with the local cultural institutions in Arad and their activities. They will work together with the community youth and children groups and connect between creation and community.

* Intended for those who can commit to stay in Arad throughout the seminar and participate in all activities.
